

Proforma Screening Solutions and ERC Dataplus Partner to Deliver Integrated Talent Acquisition Solution

Proforma Screening Solutions has announced its partnership with talent acquisition technology provider, ERC Dataplus.

Purcellville, VA ([PRWEB](#)) September 27, 2011 -- Proforma Screening Solutions has announced its partnership with talent acquisition technology provider, ERC Dataplus. Through the partnership, Proforma Screening Solutions' [employment screening](#) services are now integrated with ERC's Selectech® talent acquisition technology platform. This creates efficiencies and cost savings for employers who seek to attract the right people, manage hiring risks, and retain the best workers.

Because the companies' technologies are meshed, the administrative burdens associated with recruiting, filtering, and retaining talented employees are drastically reduced. Through the integrated services and technology platform, the entire talent acquisition process – from job requisition and candidate management to screening and onboarding – can be managed from a single web-based interface. Customers can start with any number of modules and easily integrate them into a single-source solution that scales to meet current requirements. Available modules include [applicant tracking](#), career sites and job boards, pre-hire tax credit screening, [employment background screening](#), forms management, predictive assessments, employee surveys, on boarding paperwork distribution, and more.

At the same time, applicants enjoy a user-friendly interface that is available in multiple languages.

The partnership with ERC represents the next phase in the recent evolution of Proforma Screening Solutions. The company started five years ago as a specialized background screening company. Today, it operates as part of a group of companies that comprise enterprise risk mitigation, loss prevention and audit programs, talent management, and background screening.

“Our relationship with ERC Dataplus furthers our mission of helping customers address risk and facilitate technology-enabled processes across the entire talent management lifecycle,” remarks David D. Lowers, president of Proforma Screening Solutions.

“We are pleased to take this step with our partners at Proforma, providing employers with tools that help them recruit and hire with greater confidence and efficiency,” says Peter Clarke, president of ERC Dataplus.
